

REFEX GROUP ENVIRONMENT, HEALTH AND SAFETY POLICY

Refex Group* is committed to providing a safe and secure working environment to its stakeholders, significantly reducing its environmental footprint, and promoting holistic stakeholders' engagement to meet its broader EHS objectives. To achieve this, the Refex Group will;

- Ensure compliance with all applicable EHS practices, regulations and legislation, and industry-specific legislation in all the countries in which the Company operates.
- Ensure zero harm to people, property and to the environment through effective H&S risk management, pollution prevention, GHG emission reduction, energy & resource conservation and ecosystem restoration.
- Educate and motivate through active leadership, behavioural intervention, training, and reward programs to Refex stakeholders including but not limited to employees, workers, suppliers and vendors to work in a safe and environmentally responsible manner.
- Selection and promotion of eco-friendly and non-hazardous materials, products and services considering the life cycle approach in the Company's entire value chain process.
- Promote holistic engagement with our stakeholders, both internal and external by communicating EHS risk, performance, progress and inviting suggestions/complaints for continual improvement.

Managing Director
(Anil Jain)

*Refex Group of Companies which shall mean and include its holding company, subsidiaries, affiliates, and associate companies.

REFEX GROUP QUALITY POLICY

Refex Group* is committed to ensuring the highest quality standard of our products and services and the upmost customer satisfaction. We thrive to provide quality services & products ensuring customer satisfaction & retention and without compromising compliance to environmental, social, health & safety and human rights aspects. We will achieve this by;

- Implementing and maintaining QMS conforming to ISO 9001: 2015 standard covering Refex Group businesses and operations.
- Complying with relevant quality standards & guidelines, laws and regulations as well as internal requirements.
- Providing customers with high-quality products and services which meet and exceed quality requirements and are fit for their purpose.
- Enhancing the skills of management and staff through review and actively pursuing an ongoing training policy, the objective of which is to prepare staff to perform their work more effectively.
- Promoting the culture of continual quality improvements and the philosophy of getting things "right the first time".
- Rigorously controlling the supply, installation, production, operations, and completion through proper method statements for Refex products and services.
- Promoting the quality management systems and ensuring implementation is achieved by internal auditing, management review and corrective action with a risk-based approach.
- Encouraging participation and promotion of quality responsibilities amongst all employees and third parties through standards, education, training and coaching, supervision and effective communication.

REFEX GROUP SUSTAINABILITY (ESG) POLICY

Refex Group's* thrust is optimal sustainable development through a value-creation model covering financial, environmental, social and governance performance excellence. We advocate this through our operations, products, practices and services and are committed to meeting and exceeding our set sustainable development goals. We work to thrive through continual improvement beating our own milestones and prospering along with our stakeholders, the society and the environment at large where we exist and operate. This will be achieved through;

- Ensure compliance with all applicable environmental, health and safety, financial, human rights and governance practices, regulations and legislation.
- Adhere to a high standard of corporate governance with robust financial and non-financial reporting and controls, transparency, and accountability to all stakeholders.
- Uphold a high standard of business ethics and personal conduct by employees including key managerial positions and to strictly follow the Group's Code of Conduct.
- Ensure significant reduction of our environmental footprint through pollution control, GHG emission reduction, energy and resource conservation including water resources, and ecosystem restoration.
- Due consideration for the selection and promotion of eco-friendly and non-hazardous materials, products and services considering the life cycle approach and compliance to EHS and human rights practices in Refex group entire supply chain process.
- Work in partnership with local communities for their holistic development to create social, environmental, and economic value.
- Protect human rights wherever we operate and conduct business in an ethical and responsible manner.
